Dear Sir / Madam,

We are pleased to inform you that FlySBS Aviation Limited is set to welcome another dry lease aircraft into its growing fleet. This addition of an Embraer Legacy 650 underscores our continued commitment to expanding operational capabilities beyond the existing Legacy fleet currently in service.

The Embraer Legacy 650, a 13-seater luxury private jet, is celebrated for its exceptional comfort, long-range efficiency, and proven reliability. With an impressive range of 3,900 nautical miles (7,220 km), it enables transcontinental and non-stop flights of up to six hours — making it ideally suited for direct operations from India to destinations across the Middle East and Southeast Asia.

A significant portion of India's business aviation demand lies within this range segment, and this strategic fleet expansion allows FlySBS Aviation to better serve the growing preference for medium-to long-haul private travel.

This addition strengthens our operational depth, ensuring faster induction, seamless crew transition, and enhanced maintenance support within the Embraer platform. It aligns seamlessly with our growth strategy to serve ultra-high-net-worth individuals and corporate leaders seeking reliable and premium private charter experiences.

The forthcoming entry of this aircraft will further broaden our international reach, reinforce our market leadership, and elevate the FlySBS experience for our valued clientele.
